ABOUT OUR CAMPS

Minecraft Creator

Code Ninjas #1 selling camp 3 years in a row! In this camp, ninjas will gain an understanding of the digital modeling processes and storytelling as they build scenes in Minecraft and produce stories of YOUR digital world! Ninjas will also be introduced to video recording, editing and mixing audio as they produce their final stories as short movies. Using Minecraft as a creative medium, campers will have fun expressing themselves and sharing their stories with friends.

**Minecraft Java Edition (\$26.95)
account required!**

Scratch - Create Your Own Game

Code your Own Arcade from Scratch allows ninjas to explore different programming concepts as they create various games - including Block Stacker, Catch Cats, Dodgeball and Red Light, Green Light - using a block-based programming language called Scratch. Each game focuses on a different type of block and provides campers with extra tools to use in their own games. Concepts include variables, loops, functions, animation, clones, video detection, audio detection and more.

Stop Motion Animation

During the Stop Motion Animation camp, ninjas will experiment with video production through a variety of mediums including Claymation, LEGO Minifigures, pipe cleaner creatures and much more! Ninjas will capture images frame-by-frame and produce videos in a rapid prototyping style. Campers will work independently on their videos as well as collaborate in teams during the entire design process.

Minecraft - Making the MOD

In Learning to MOD: Designing Modifications with Minecraft, campers will learn how to manipulate and master Minecraft by making their own mods (modifications). Using basic block-based coding, ninjas will learn procedures, conditionals, and variables. They will create 2D and 3D textures for use in their Minecraft world along with their very own custom content, including weapons, armor and even enemies!

Minecraft Java Edition (\$26.95) account required!

Code & Music : Building the Beat

Campers will learn how to program music in an application called Sonic Pi at Building the Beat: A Music Coding Camp. They will learn the basics of music such as notes, samples, effects and parameters along with the basics of programming including loops, variables, threads and more. Sonic Pi is a free and open-source environment, so campers can continue working on their songs even after camp is over!

MakeCode Arcade : Retro Game Club

During the MakeCode Arcade with Meowbit camp, Ninjas will learn how to code video games and bring them to life on their handheld gaming device, a Kittenbot Meowbit! Campers will learn the power of coding with MakeCode (a visual block-based coding environment) and see their games come to life in the physical world on the Meowbit!

Meowbit Game Development Console (\$40) required!

Micro:Bit - Bit of Micro

At A Bit of Micro:Bit Magic, ninjas will learn to plan, tinker and get physical with the BBC Micro:Bit microcontroller. Campers can expect to explore programming in an exciting new programming language released specifically for the new version of the Micro:Bit called Microblocks. For those who prefer to build and create projects with different coding language, MakeCode Blockly and JavaScript will also be available to campers. The new Micro:Bit will allow students to build a variety of exciting and challenging projects and learn how to test sound and music.

Become a YouTuber!

Campers will advance both their coding and vlogger skills as they create a complex Scratch game and accompanying video tutorial to be uploaded to their own personalized YouTube Channel

Roblox Developer

Campers learn the basics of game building and creative development in Roblox an exciting, user-generated online gaming platform similar to Minecraft. Campers will use Roblox to create much more than just a game! Open to all levels of experience, this camp will teach ninjas how to plan, design and build their own 3D world. Unlock Your Potential: Become a Roblox Developer is a hands-on, fully guided experience led by our awesome team of Code Senseis.

Roblox : Hackers Wanted

Ninjas familiar with Roblox will take their Roblox skills to the next level with Hackers Wanted: Uncover the Code in Roblox. Campers learn fundamentals of scripting (coding) and dig into the game making side of Roblox to move from being a player to becoming a developer. Using the LUA programming language, ninjas will create their own times, sudden-death Roblox game along with an interactive obstacle course game.

IMPORTANT INFO

- Camps run Monday - Friday unless otherwise noted
- Check Schedule online: <http://bit.ly/2MsX7Xd>
- Morning session - 8:30 AM - 11:30 AM
- Afternoon session - 12:30 PM - 3 :30 PM
- Full day (8:30 AM - 3:30 PM)
- Drop Off: 8:15 AM ~ 8:30 AM (Morning)
- Pick Up: 3:30 PM ~ 3:45 PM (Afternoon)
- Closed-toe shoes only
- Limited spots per camp
- Nut-free center. No Lunch provided.
